

Mortuary Coolers

U.S. Cooler has built premium walk-in and environmentally controlled units for over 25 years and has become a trusted product in the industry. U.S. Cooler's mortuary coolers are built to meet the demands of Funeral Directors, Coroners, Medical Labs, and many other temperature controlled environments. These systems come equipped with a heavy duty stationary rack system for ease of loading and unloading. Our high quality, energy efficient mortuary refrigerators are made to meet sanitation requirements and are NSF and UL approved.
